

Akshay Jegaonkar

Software Developer

+91-7775938882 • akshayjegaonkar@gmail.com • linkedin.com/in/akshay-jegaonkar • github.com/jegaonkar

Enthusiastic software developer with expertise in Python, Django, and SQL, and a strong foundation in front-end frameworks like React.js. Passionate about learning new technologies, system integration, and automation. Known for delivering high-quality results, strong communication, and effective collaboration.

WORK EXPERIENCE

TNP Event Planners

Software Developer

- Developed websites using React.js, focusing on creating dynamic and responsive user interfaces, while collaborating in an Agile environment and managing tasks through Atlassian Jira.
- Played the role of project manager by coordinating team activities, setting deadlines, and ensuring successful project delivery within the defined scope and timeline.

InvictIQ

Junior Software Developer Intern

- Gained experience in front-end development, API integration, and working with Angular, enhancing my technical skills and deepening my understanding of modern web development practices.
- Emphasized the importance of collaboration, problem-solving, and effective communication.
- Regularly used tools like Slack and Azure DevOps to manage software projects and coordinate with team members, ensuring smooth workflows and successful project outcomes.

PROJECT

EmpTrack — Employee Management System

Built a system for adding, removing, and managing employees with secure authentication, role-based access, and real-time updates. Features include department assignments, salary management, and a user-friendly dashboard.

Technologies Used: Django, HTML, CSS, Bootstrap, JavaScript, SQLite

Twееееet — Microblogging Platform

Developed a Twitter-like social media platform, enhancing real-time interactions, user engagement, and responsive design. Implemented authentication, post creation, and follow system features.

Technologies Used: Django, HTML, CSS, Bootstrap, JavaScript, SQLite

EDUCATION

Master of Computer Applications

Savitribai Phule Pune University (SPPU), Pune | CGPA: 7.98 (First Year)

Bachelor of Computer Applications

Dr. Babasaheb Ambedkar Marathwada University | Percentage: 74.44%

SKILLS

Programming Languages: Python (Proficient), JavaScript (Intermediate)

Frameworks & Libraries: Django (Proficient), Angular (Intermediate), React.js (Intermediate)

Web Development: HTML/CSS (Proficient), Bootstrap

Databases: MySQL (Proficient), MongoDB (Intermediate)

Version Control: Git (Proficient)

Project Management & Collaboration Tools: Agile Methodologies, Atlassian Jira, Project Management (Intermediate)

Additional Interests: Model-Based System Engineering (Beginner), System Integration (Beginner), Automation (Basic Understanding)
